

OEM Aluminium Steel Sand Die Casting Gravity Zinc Alloy CNC Machining Parts

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

- Place of Origin: China
- Brand Name: MetalPlus
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: EP Paper ,kraft and pallet
- Delivery Time: 20days
- Payment Terms: T/T or L/C
- Supply Ability: 100 000 ton each month

Product Specification

- Die Casting Method: Precision Die Casting
- Machining: CNC Machining
- Certification: SGS
- Texture: According To Customer's Drawing Or Samples
- Application: Agricultural Machinery Parts
- Material: Stainless Steel, Carbon Steel, Alloy Steel
- Highlight: **CNC Machining Steel Casting Parts, Sand Die Gravity Casting, Zinc alloy Steel Casting**

Product Description

Description:

Material	Aluminum alloy: ADC12 Steel Zinc alloy
Processing Craft	Drawings→ mould making → die casting → rough machining → CNC machining→ surface treatment → product checking→ packing → delivery
Surface Treatment	Electroplating, Chrome Plating, Zinc Plating, Nickel plating, Electrophoresis, Anodization, Polishing, Sandblasting, Passivation, Powder coating, Spray painting, Etc.
Quality Assurance	ISO9001:2015 Certified, SGS Certification
Inspection	1. Foundry in-house: 100% inspection on critical dimension; 100% on appearance. 2. Third Party inspection available upon requirement
Features & Advantage	1. High strength and not easy to deform, has good electrical and thermal conductivity. 2. The machining precision is high and the assembly structure is seamless. 3. No granules, no spots and no painting peel off in appearance. 4. Smooth appearance, corrosion resistance.
Application	3C industry, lighting decoration, electrical appliances, auto parts, furniture parts, electric tool, medical equipment, intelligent automation equipment, other metal casting parts.

Competitive Advantage:

Project team-customer service

Engineering team-provide R&D and technical support

QC team-productive process control and incoming parts inspection

Warehouse team-warehouse management and logistic service

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactories' capacity.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Venire Caliper, etc.

We can offer Casting sand casting parts according to your requirement :

1).ISO9001 SGS

2).OEM service available

3).Materials: Cast Iron: Grey Iron castings/Gray Iron Castings, Malleable Iron Castings, Ductile Iron Castings, with Coated Sand Casting & Green Resin Sand Castings & Sand Castings

4).Process: sand casting

5).Weight range: 1KG-2TON

6).Application: Industrial parts, Machinery parts, hardware, construction parts, valve parts, train, craft, door handle, hinge, hydraulic pressure, construction, agricultural machinery

7).Small orders accepted

8).Make machining service as your requirement or drawings

9).Professional service

10).Surface treatment, painting, zinc plating, machining center, powder coating, Shot Blast, etc.

11).High quality and after sale service

12).Satisfying customers
