

Electric Vehicle Chassis / Aluminum Die Casting Parts / EV Battery Enclosure

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: MetalPlus
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: EP Paper ,kraft and pallet
- Delivery Time: 20days
- Payment Terms: T/T or L/C
- Supply Ability: 100 000 ton each month

Product Specification

- Die Casting Method: Precision Die Casting
- Machining: CNC Machining
- Material: Aluminum
- Texture: According To Customer's Drawing Or Samples
- Application: Industrial Machinery Parts
- Surface: Anodized
- Highlight: **Aluminum Die Casting EV Battery Enclosure,
CNC Machining Anodized EV Battery Enclosure,
Aluminum Precision EV Battery Enclosure**

Product Description

Electric Vehicle Chassis / Aluminum Die Casting Parts / EV Battery Enclosure

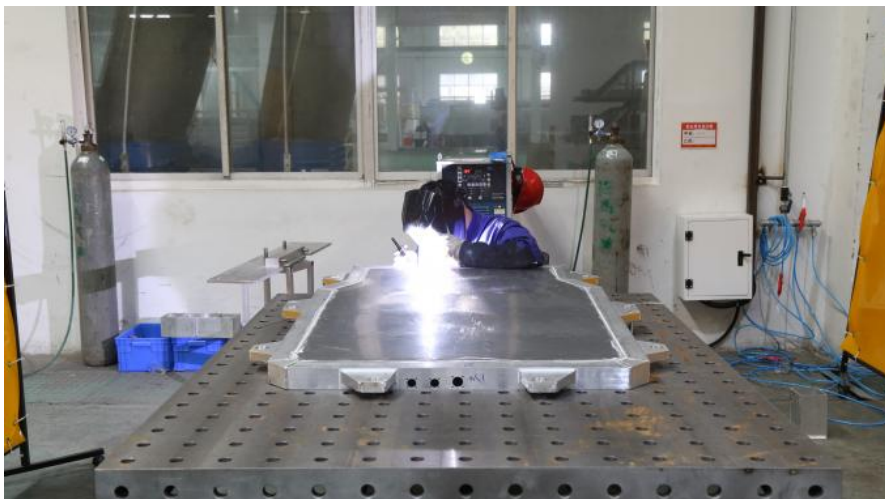

Description:

Our company owns powerful technical strength and international advanced investment casting equipment as well as machining capability for providing a series of high quality service to the clients, which is specialized on the production of investment castings made by high-quality aluminum. The company has passed quality certification of ISO9901:2008, possessing import and export right. The products are exported to the United States, Japan, Europe and other regions as well .

Material	Aluminum
Additional machining	Laser Cutting ,Stamping, Punching , Bending, turning ,Welding, machining, surface treatment, and other General Fabrication Service
Surface treatment	sand blasting, shot/ bead blasting, polishing, plating, acid treatment, anodizing, painting, powder coating,passivating,electropolishing ect.
Application	New Energy Vehicle , Electric Car Battery Box , EV Battery Enclosure

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactures' capacity.

Workshop equipment of casting and machining:

7 machines for die casting , 12 machines for CNC and other more than 40 normal machines. We have 1 equipment for three coordinates measuring and any other infiltrationh, shot blasting, washing and presssure testing equipments.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Vernier Caliper, etc.

Our advantages:

1. More than 10 years manufacturing experience on Casting Production .
2. Competitive Price and Good service.
3. Hard work of our QC team employee guaranteed the stable quality.
4. Well- experienced in providing production for Custom design and OEM order.
