60 Series ISO9001:2008 Certified Custom Silkscreen Printing Aluminum Audio **Amplifier Box Profile**

Basic Information

SONCAP, ISO, RoHS, TUV · Certification:

Minimum Order Quantity: 500 Price: 1

Product Specification

• Alloy: 6063 • Temper: T3-T8

. Surface Finishing: **Anodic Oxidation**

Surface Treatment: Anodizing/Powder Painting . Polishing Type: Chemical/Mechanical Polish • Tensile Strength: ≥ 160Mpa (T5), ≥ 205Mpa (T6) • Yield Strength: ≥ 110Mpa (T5), ≥ 180Mpa (T6)

. Elongation: ≥ 8% • Max Diameter: 350mm • Extrusion Capacity: 6800 Ton Unit

Anodizing Lines: Powder Coating Lines: 4 • CNC Machining Centers:

Punching Machines: 30 (50-100 Tons) Production Capacity: 50000PCS /Month

6063 Custom Silkscreen Printing Powder Painted Aluminum Audio Amplifier Box Profile

MetalPlus produces an extensive assortment of top-quality, custom-standardized casings. Our selection of industrial enclosures for electronics includes aluminum profile housings, die-cast aluminum boxes, standard aluminum chassis, rack mount enclosures, and CNC precision machined components.

Key Product Features

Alloy options: 6060/6061/6063/6082/6005 etc (T6/T5 available)

Custom lengths to meet specific requirements

Multiple surface treatments: Mill finish, Anodized, Powder Coated, Wooden Transfer

Comprehensive fabrication services: cutting, milling, punching, stamping, drilling, CNC, assembly

One-stop service from mold design to final delivery

OEM and custom designs welcome

Product Specifications

Aluminum top+bottom plate with aluminum case design

Ideal for rail transit, new energy, power equipment, meteorological testing, and marine monitoring applications

Extruded aluminum frame with die-cast aluminum panels for durability in hostile environments

Waterproof design with excellent heat dissipation properties

Convenient PCB or chassis mounting via horizontal sliding into inner-grooved body frame

Suitable for measuring instruments, industrial control boxes, industrial camera housings, and outdoor WiFi access points

Technical Support

Custom design services for extruded profiles including CAD drawings and 3D models

Professional R&D team for design analysis and optimization

One-stop service from product design to final delivery

Complete in-house production process control for quality assurance

Factory Equipment

MetalPlus operates 44 aluminum extrusion lines capable of producing commercial and industrial aluminum profiles with maximum outer diameters of 350mm. Our largest 6800-ton extruder can handle complex industrial profiles up to 600mm in diameter.

Painting Process Our 4 powder spraying lines use high-quality Gema Switzerland spray nozzles with environmentally friendly paints for strong adhesion and durable color retention. CNC Machining 12 PATIC machining centers for complex profile processing Fully automatic Wagoma cutting machines for precision cutting 30 punching machines (50-100 ton capacity) 10 stretch bending machines for various plane and groove machining 10 milling machines for various plane and groove machining 10 milling machines for various plane and groove machining Packing and Shipping Finished products are carefully packaged and undergo strict quality inspection before delivery. Our organized warehouse system ensures accurate product tracking and handling. Certifications Certifications Company History 2004: Recognized Brand of the Building Industry Material Market 2005: ISO9001 Certification 2009: Jiangsu Famous Brand Certificate 2012: Established partnerships with Panasonic and LG 2015: Became supplier for German clients 2017: Developed new baseboard heater products 2019: Partnered with world's largest heater manufacturers 2023: Expanding global distribution network Notable Projects Secer City Stadium, Johannesburg: As the main aluminum supplier for Africa's largest stadium (94,000 seats), we contributed to this landmark project that received widespread acclaim. Lobster Trailers: Our collaboration with this Nordic trailer giant demonstrates our ability to optimize designs and manufacturing processes for superior product performance. School Furniture Project: Supplied aluminum lags for school desks, helping our client successfully complete their educational facility	Our 6 anodizing lines produce uniform oxidation films with consistent color options including silver, black, gold, champagne, and imitation steel. Custom colors available upon request.
