6063 Aluminum Alloy Industrial Fan Blade with Sandblasting Anodized Surface and Customized Dimension

Basic Information

Certification: ISOMinimum Order Quantity: 300Price: 2.99

Product Specification

Material: 6063 Aluminum Profile

• Tolerance: ±0.1mm

• Section Size: Square: ≤ 150*150mm, Rectangle: ≤

250*50mm, Round: ≤ Ø 170mm

• Surface Treatment: Powder Coating, Anodizing, Sandblasting,

Brushing, Passivation, Silk Screen, Mechanical/Chemical Polishing, Wood Grain

Coated, Galvanise, PVDF, Matt

Color Options: Wooden Grain, Aluminium Silver, Brilliant

Black, Cream White, Chocolate Brown, Bronze, Champagne, Golden Yellow

Processing: Cutting, Punching, Bending, Tapping,

Drilling, CNC Lathe

• Grade: 6000 Series

• Temper: T3-T8

Surface Finishing: Sandblasting Oxidation

• Alloying Ingredient: 6063

Product Description

Extra Long Fan Blade Aluminum Profile for Station Warehouse Ceiling Fan

Metalplus specializes in aluminum industrial profile design and manufacturing with a production base of more than 100,000 square meters and annual capacity exceeding 100,000 tons.

Product Specifications

Material	6063 aluminum profile
Mechanic al Processin g	Aluminium profile extruding, Precious milling, Cutting, Punching, Bending, Tapping, Drilling, CNC lathe
Tolerance	Length: ±0.2mm, Hole: ±0.05mm
Surface Treatment	Powder Coating in RAL Color, Anodizing(AA10/15/20/25), Sandblasting, Brushing, Passivation, Silk screen, Mechanical/Chemical Polishing, Wood grain coated /Wooden transfer, Galvanise,(Nickel/Tin/Chrome/Copper) Plating, PVDF, Matt
Color Customiz ation	Wooden Grain, Aluminium Silver, Brilliant Black, Cream White, Chocolate Brown, Bronze, Champagne, Golden Yellow
Section Size	Square: ≤ 150*150mm Rectangle: ≤ 250*50mm Round: ≤ Ø170mm
Package	Inner plastic paper/PE paper interleaving each piece; Outer fixed by plywood or pallets with shipping mark; Or as required
Delivery Time	15-25 days after deposit

Manufacturing Advantages

We export the majority of our customized products to the United States and Europe, where our customers have become regular clients. Our extensive experience in this field enables us to easily satisfy customer requirements.

Over 17 years of manufacturing experience in Aluminum Extrusion

Strong design and manufacturing capabilities including Extrusion, CNC machining, Milling, and Turning

Complete metal processing equipment including laser cutting, CNC bending, and welding

Comprehensive quality control throughout the manufacturing process for long-term stability and excellent quality

Technical Support Services

Custom design services including CAD drawings and 3D models for customer confirmation

Professional R&D team for design analysis and optimization to reduce production costs and improve performance

One-stop service model covering product design, custom molds, aluminum bar melting and casting, extrusion profiling, precision machining, and surface treatment

Factory Equipment Capabilities

Extrusion

44 aluminum extrusion lines capable of producing commercial and industrial aluminum profiles with maximum outer diameter of 350mm. Largest extruder is a 6800 ton unit for profiles up to 600mm diameter.

Anodizing

6 anodizing production lines creating uniform oxidation film thickness and color. Available in silver, black, gold, champagne, imitation steel, and custom colors.

Powder spraying lines using high-quality Gema Switzerland spray nozzles with safe, environmentally friendly paint. CNC Machining 12 PRATIC machining centers for milling, drilling, and tapping of profiles up to 6 meters Fully automatic cutting machines from Wegoma for precise cutting with continuous material feeding 30 punching machines (50-100 tons) for thick profiles over 5mm 10 stretch bending machines for precise arc and angle bending 10 milling machines for machining different planes, bevels, and grooves Packaging & Quality Assurance Finished products are manually packaged and ready for delivery. Strict warehouse management procedures with comprehensive examination before shipping. Certifications Notable Projects Soccer City Stadium, Johannesburg The 94,000 seat stadium is the largest capacity stadium in Africa. We were honored to participate as the main aluminum supplier for this prestigious project. Colster Trailers Collaboration with Nordic trailer giant featuring professional R&D analysis and optimization to minimize production costs and improve product	Painting 4 powder spraying lines using high-quality Gema Switzerland spray nozzles with safe, environmentally friendly paint.	
2 PRATIC machining 12 PRATIC machining centers for milling, drilling, and tapping of profiles up to 6 meters Fully automatic cutting machines from Wegoma for precise cutting with continuous material feeding 30 punching machines (50-100 tons) for thick profiles over 5mm 10 stretch bending machines for precise arc and angle bending 10 milling machines for machining different planes, bevels, and grooves Packaging & Quality Assurance Finished products are manually packaged and ready for delivery.
