

CNC Machining 7150 Customized Aluminum Profile Communication Enclosure

Our Product Introduction

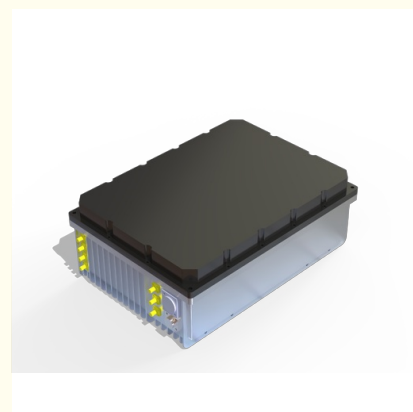

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

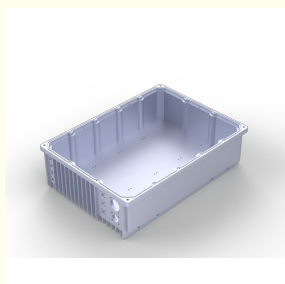

Product Specification

- Material: 6063,6061,6060,6005,7075,7055,7150,2A12,
- Temper: T4 T5 ,T6,T66
- Size: Customized ,we Also Can Design According To Your Specific Performance
- Surface: Electrophoresis ,Powder Painting , Anodizing ,Brush ,Satin, Polish Etc .
- Machining: Cutting Drilling Tapping Punching CNC Machining ,Weldingetc .
- Package: Each Product Will Be Packed By EP Foam , Packed In Cartons , And Then Packed In Wooden Cases . Or The Packing Will Be According To The Characteristics Of The Products .
- Certificate: ISO9001:2008,SGS.
- Usage: Communication Enclosure
- Highlight: **CNC machining aluminum enclosure, customized aluminum communication enclosure**

Product Description

High-Performance Communication Enclosure

Engineered for high-performance communications infrastructure, our large-scale enclosures are precision CNC-machined from solid aluminum extrusions for superior strength and thermal management.

Key Advantages

Robust Construction: Built for durability in demanding environments.

Advanced Thermal Management: Optimized for heat dissipation.

Interference Protection: Seamless design for signal integrity.

Precision Engineering: High-accuracy CNC machining processes.

Full Customization: Tailored to your specific infrastructure needs.

Product Attributes

 **Hentec Industry Co.,Ltd**
