

6063 6061 Aluminum Curtain Wall Profile Mill Finish

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

Product Specification

- Item Name: Aluminum Extruded Curtain Wall Profile
- Material Grade: 6063 6061
- Temper: T5, T6
- Surface Treatment: Mill Finish, Anodizing, Powder Coating, Electrophoresis, Wooden Grain, Etc.
- Color: Brown, Red, White, Champagne Or Customized
- Normal Powder Coated Thickness: 60-100 μm
- Normal Anodizing Thickness: 10-15 μm
- Deep Processing: Cutting, Drilling, Punching, Bending Etc.
- Design: Designers In Design And Development Department; Auto CAD, 3D, AI, SLD, PRT. IGS, PDF, JPEG Etc.
- Engineering Tooling: 20 Engineers In Mold Shop; Use High Tonnage Extruder, Wire EDM, CNC, Drilling Machines Etc.

Product Description

Aluminum Extruded Curtain Wall System

The Aluminum Curtain Wall System is an aesthetic and novel building façade solution, defining the character of modern high-rise architecture. Beyond its striking visual appeal, it provides critical structural and environmental functions.

Core Functions: Wind resistance, flashing, and air permeability.

Environmental Control: Superior heat preservation, thermal insulation, and acoustical insulation.

Structural Integrity: Lightweight yet high-strength construction.

Durability: Highly weather and corrosion-resistant for long-term performance.

Product Attributes

Material Grade

6063, 6061

Temper

T5, T6

Surface Treatment

Mill finish, anodizing, powder coating, electrophoresis, wooden grain, etc.

Color Options

Brown, red, white, champagne or Customized

Technical Specifications

Normal Powder Coating	60-100 µm
Normal Anodizing	10-15 µm
Deep Processing	Cutting, drilling, punching, bending
Design Support	Auto CAD, 3D, AI, SLD, PRT, IGS, PDF, JPEG
Engineering Tools	High tonnage extruder, Wire EDM, CNC, Drilling machines
