

High Precision Zinc Alloy Casting Powder Coating For Lighting

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: HT
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: EP Paper ,kraft and pallet
- Delivery Time: 20days
- Payment Terms: T/T or L/C
- Supply Ability: 100 000 ton each month

Product Specification

- Highlight: Die Casting Parts, Aluminum Die Casting

Product Description

High Precision Zinc Alloy Casting Powder Coating For Lighting

Description:

- 1,material: carbon steel, stainless steel, alloy steel, aluminium alloy, zinc alloy etc.
- 2,surface treatment: sand blast, polishing, electroplating, electroless nickel plating, hot galvanizing, spray coating, dacromet etc.
- 3,heat treatment: quenching, annealing, tempering, normalizing etc.
- 4,process: die casting, investment casting, gravity casting, hot forging, machining, stamping etc.
- 5,packing: as customer's require

Applications:

Precision Casting Parts are widely used in Auto Parts Series , Machinery Parts Series , Hardware Parts Series , Medical Equipment Series .

Competitive Advantage:

1. Tight tolerance, Provide ODM/OEM service
2. Steady Quality and Small Quantity Accepted
3. Reliable Capacity
4. Standard: According to the dimension tolerance of machining of customers' requirement.
5. On Time Delivery
6. Competitive Price
7. Rich Experience on Casting Production

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactures' capacity.

Workshop equipment of casting and machining:

7 machines for die casting weight , and 4 machines for machining center, 12 machines for CNC and other more than 40 normal machines. We have 1 equipment for three coordinates measuring and any other infiltrationh, shot blasting, washing and pressure testing equipments.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Venire Caliper, etc.

Processing :
