

Professional Precision Casting Parts , Sand Casting Wheel Hub

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: HT
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: EP Paper ,kraft and pallet
- Delivery Time: 20days
- Payment Terms: T/T or L/C
- Supply Ability: 100 000 ton each month

Product Specification

- Highlight: Die Casting Parts, Aluminum Die Casting

Product Description

Professional Precision Casting Parts , Sand Casting Wheel Hub

Description:

About us

From Die casting, CNC mechanism(cnc machining,turning),aluminum extrusion(heat sink), sheet metal fabrication(laser cutting, stamping, bending, welding, polishing, assembly process),plastic injection molding, to cable and wire assembly, PCB assembly(SMP&DIP process), final assembly and testing,here we can offer you with one-stop solutions

As a vertically integrated group with manufacturing plants incorporating design, development, prototyping and tooling, production,assembly,quality control,certification,storage and logistics,we can offer customers with unit component and in-house integrated assembly value-added service.

Our advantage

- 1 Professional Aluminum and Zinc Die Casting Manufacturer
- 2 One-stop Service of Toolings, Die-Casting , Machining
3. Excellent Process Management
4. Prompt Toolings & Delivery
5. ISO9001 Certified , SGS Audited
6. OEM is available & welcome

Product Details

Raw materials: Aluminum Alloy, A380, A356, ADC12, A360 or per request.

Process: Cold pressure die casting

Surface Treatment: Chrome plating, sandblasting, painting, anodizing, powder coating, electrophoresis, etc.

Tolerance: 0.1mm for die casting, 0.002mm for machining.

Tools Leading: 30-45days

Sample Leading: 40-50days

Finish Process: Trimming , Deburring ,Drill, CNC etc

Line Capacity: 0.005kgs ~ 20kgs

Package: Polybag ,Carton, Skids, or as per request

Applications:

Precision Casting Parts are widely used in Auto Parts Series , Machinery Parts Series , Hardware Parts Series , Medical Equipment Series .

Competitive Advantage:

1. Tight tolerance, Provide ODM/OEM service
2. Steady Quality and Small Quantity Accepted
3. Reliable Capacity
4. Standard: According to the dimension tolerance of machining of customers' requirement.
5. On Time Delivery
6. Competitive Price
7. Rich Experience on Casting Production

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactures' capacity.

Workshop equipment of casting and machining:

Die casting machine: 7machines for weight 900tons to 63tons and 4 machines for machining center, 12 machines for CNC and other more than 40 normal machines. We have 1 equipment for three coordinates measuring and any other infiltrationh, shot blasting, washing and presssure testing equipments.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Venire Caliper, etc.
