

CNC Machining Aluminum Precision Casting Parts

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

- Place of Origin: China
- Certification: CA ,CE
- Minimum Order Quantity: 1 ton
- Packaging Details: EP Paper ,kraft and pallet
- Delivery Time: 20days
- Payment Terms: T/T or L/C
- Supply Ability: 100 000 ton each month

Product Specification

- Die Casting Method: Precision Die Casting
- Machining: CNC Machining
- Material: Aluminum
- Texture: According To Customer's Drawing Or Samples
- Application: Industrial Machinery Parts
- Surface: Anodized
- Highlight: Die Casting Parts, precision investment casting

Product Description

CNC Machining Aluminum Precision Casting Parts

Description:

Our company owns powerful technical strength and international advanced investment casting equipment as well as machining capability for providing a series of high quality service to the clients, which is specialized on the production of investment castings made by high-quality aluminum. The company has passed quality certification of ISO9901:2008, possessing import and export right. The products are exported to the United States, Japan, Europe and other regions as well .

Material	Aluminum
Additional machining	turning , milling, drilling, grinding, threading, CNC machining, etc.
Surface treatment	sand blasting, shot/ bead blasting, polishing, plating, acid treatment, anodizing, painting, powder coating,passivating,electropolishing ect.
Application	Industrial machinery parts, Marine hardwares, Pipe Fitting Parts, Textile machinery parts, Sport facility parts, Pneumatic tools parts, Fluid equipment parts, Copper alloy parts, Food machinery parts, Auto parts, Elevator Parts, Air compressor Parts, Electric machine & hardware fittings, Mining & earthmoving machinery accessories, pump body and valve

Competitive Advantage:

1. Tight tolerance, Provide ODM/OEM service
2. Steady Quality and Small Quantity Accepted
3. Reliable Capacity
4. Standard: According to the dimension tolerance of machining of customers' requirement.
5. On Time Delivery
6. Competitive Price
7. Rich Experience on Casting Production

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactures' capacity.

Workshop equipment of casting and machining:

Die casting machine: 7machines for weight 900tons to 63tons and 4 machines for machining center, 12 machines for CNC and other more than 40 normal machines. We have 1 equipment for three coordinates measuring and any other infiltrationh, shot blasting, washing and presssure testing equipments.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Venire Caliper, etc.
