Investment Precision Casting Parts CNC Machining Brass Auto Parts

Basic Information

. Place of Origin: China HT . Brand Name: CA,CE Certification: Minimum Order Quantity:

Packaging Details: EP Paper ,kraft and pallet

Delivery Time: 20days • Payment Terms: T/T or L/C

• Supply Ability: 100 000 ton each month

Product Specification

. Die Casting Method: Precision Die Casting · Machining: **CNC Machining**

. Certivication: SGS

Texture: According To Customer's Drawing Or

Samples

Application: Agricultural Machinery Parts

Highlight: Die Casting Parts, precision investment casting

Product Description

Investment Precision Casting Parts CNC Machining Brass Auto Parts

Descrition:

OEM or ODM parts;

Material spectrum analyzed;

Mechanical properties tested;

Both CNC machined and raw castings are available;

Inspection documents provided;

Casting Process Ceramic lost wax casting / Investment castings

Casting Capacity 900 tons / year Net Weight of Castings 0.1 Kg - 70 Kg

Dimension of Castings 20mm x 20mm - 600mm x 600mm Tolerance of Castings ISO8062-3 DCTG6 & GCTG4

Machining Tolerance IT7

Material DIN, ASTM, JIS, BS

Surface Finish

Shot blasting, sand blasting, high glossy polishing/mirror polishing, electro

polishing Shanghai, Ningbo

Certification ISO9001-2008, PED Material Certificate

Applications:

Export Ports

Precision Casting Parts are widely used in Auto Parts Series , Machinery Parts Series , Hardware Parts Series , Medical Equipment Series .

Competitive Advantage:

- 1. Tight tolerance, Provide ODM/OEM service
- 2. Steady Quality and Small Quantity Accepted
- 3. Reliable Capacity
- 4. Standard: According to the dimension tolerance of machining of customers' requirement.
- 5. On Time Delivery
- 6. Competitive Price
- 7. Rich Experience on Casting Production

Machined parts production range:

We are a professional manufacturer of casting and machining. Most of our production is automobile parts, meter, instrument casing and other productions for civil and industry use according to concerned national standard. We have professional fixture and testing tools for many required production which can fit various machinofactures' capacity.

Workshop equipment of casting and machining:

7 machines for die casting weight , 4 machines for machining center, 12 machines for CNC and other more than 40 normal machines. We have 1 equipment for three coordinates measuring and any other infiltrationh, shot blasting, washing and presssure testing equipments.

Casting and machining inspection:

Inspection: In-house and third party

All the products are strictly inspected by operator and skilled QC with record put down.

Universal inspection tools: Hardness tester, Height ruler, Depth ruler, Outside ruler, Venire Caliper, etc.
