

Mill Finished Aluminium Profile System Automation Equipment for Production Line

Our Product Introduction

for more products please visit us on aluminumextrusion-profiles.com

Basic Information

- Place of Origin: China
- Brand Name: Hentec
- Certification: SGS
- Minimum Order Quantity: 1 ton
- Packaging Details: Ep paper ,kraft ,pallet
- Delivery Time: 20days
- Payment Terms: T/T ,L/C
- Supply Ability: 100 000ton each month

Product Specification

- Product Name: Assembly Line
- Alloy: 6063,6061,6005
- Material: Aluminum
- Surface Treatment: Mill Finished,Anodized ,Electrophoretic Coated,Powder Spray Coated
- Deep Process: Milling, Drilling, Bending,Cutting
- Temper: T4, T5, T6 ,T66
- Highlight: **modular aluminium profile system,
aluminium extrusion frame system**

Product Description

Mill Finished Aluminium Profile System Automation Equipment Use / Assembly Line / Production Line

We can design, manufacture various types of purpose-built LCD TV/LED TV assembly lines /production lines according to the specific requirements of our customers .

- 1) aluminum alloy:AL6063/6061/6005 or as for per customers's require.
- 2) finish. various anodizing colors,powder coating,paiting or mill finish.
- 3) Surface treatmen: andozied,electrophoresis, powder coating(any color),mill finish,color painting,and so on
- 4) Length: according to clients' need
- 5) Packing: with plastic film and wrapped with kraft paper.or meet the clients' requires
- 6) Usage of the aluminum products: decoration,furniture,windows and door frame,curtain wall,conatruction,etc. We have the Extruding machine (4500T) .
- 7) Certificate: ISO9001.ISO14001

Order,payment,terms,shipment

- 1, Minimum order: 500kg per trial order 1 piece of sample free of charge provided by approval and kept for future mass production.
- 2, Sample Lead Time: 25 working days(15 days for making the tool and 10 days making the samples. Before sending the samples to customer, samples should pass strict test in our lab.)Production Lead time: it depends on customers' order quantity (30 working days after deposit).
- 3, Payment: (Can negotiate with customers, our usual practices are as follow)
- 4, Tooling:100% prepaid by T/T.
- 5, Parts:30% upon order confirmation and balance before delivery by T/T

Applications:

Mainly used for industrial production , such as automation equipment , enclosure of the skeleton and the companies according to their own customized mold machinery and equipment , such as assembly line conveyor , hoist, dispenser, testing equipment, shelves , etc., electronic machinery industries and clean room with a gain majority.

Competitive Advantage:

1 to facilitate the construction : a modular and multi-functional, without complex design and processing , you can quickly frame the ideal machinery coat.

2 beautiful and practical : light and high rigidity, simple and beautiful appearance .

3 Strong scalability : The unique T-type, groove design , the installation of components without demolition profiles can be installed anywhere in the nut screws , modified equipment is simple and quick.Aluminum extrusion profile , is rod by hot melt extrusion , to obtain different cross-sectional shapes of an aluminum material . Aluminum production processes including casting, extrusion and painting three processes . Among them, the color include: oxidation, electrophoresis coating, fluorine carbon spraying, powder coating, wood grain transfer printing and other processes.

Air container assembly line , Led downlight bulb light assembly line ,160 ton powder press assembly line
