

## Aluminum / Zinc Hardware Die Casting Parts For Washing Machine Parts

Our Product Introduction

for more products please visit us on [aluminumextrusion-profiles.com](http://aluminumextrusion-profiles.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: Shengsai / Longshan / Xieji
- Certification: ISO9001-2008
- Minimum Order Quantity: 1
- Packaging Details: Standard Export Box
- Delivery Time: 2-5weeks
- Payment Terms: T/T

### Product Specification

- Material: Zinc/Aluminum Ingot Or Customized
- Surface Treatment: Polishing,duburring,powder Painted,painted,heat Treatment
- Color: All Color Available
- Dimensions: Common Praction Or Customized
- Design: 3D Or CAD
- Package: Standard Export Box
- Highlight: **Die Casting Parts, Aluminum Die Casting**

## Product Description

### Key Specifications/Special Features:

The die-casting for washing machine parts is used for washing machine. This product has been used for Little Swan washing machine for one year. We have the hot die casting machine 90T, Cold die casting 180T/400T/950T. Our company boasts the technical strength and experience in the design and production of die-casting equipment. We provide our customers with amazing products and high quality services.

### Product Details:

Item Name	Aluminum/Zinc Die-casting For Washing Machine Parts
Material	Aluminum/Zinc 1got or customized
Surface Treatment	Polishing, duburring, powder painted, painted, heat treatment
Dimensions	Common praction or customized
Applications	Household electric appliances
Processing	Pattering-molding-maching-cleaning-finishing
Machine Size	Hot die-casting machine 90T, Cold die-casting machine 180T/400T/950T
Weight Per Unit	Can cast from 0.02-25KG per pieces
Tooling Lead Time	2-5weeks for mold design and fabrication
Tolerance Grade	0.5mm can reach 0.05mm after CNC job

### Products photos show as below:

### Product Procedure:

### Produce range:

▪Machinery parts	▪Auto/motor parts
▪Hardware parts	▪Lighting components
▪Electric motor parts	▪Agriculture Machinery
▪Medical Equipment parts	▪Electrical appliances

### Primary Competitive Advantage:

▪Packaging	▪Price
▪Product Performance	▪Prompt Delivery
▪Quality Approvals	▪Service
▪Small Order Accepted	▪Military Specification

### Main Export Markets:

▪Asia	▪Australasia
▪Central/South America	▪Eastern Europe
▪Mid East/Africa	▪North America
▪Western Europe	

### Applications:

Precision die-casting parts are widely used in the hardware parts ,the production of auto parts,machinery parts and medical equipment and so on.

### Machined parts production range:

We are a professional manufacturer with most of our products being applied to the production of instrument die-casting,sewing machine die-casting,washing machine die-casting,explosion -proof motor box and other components.

### FAQ

#### Q: How to receive a quotation in the shortest time?

A: When you send us an enquiry, please try to provide more details, such as product size, photo or drawing, order quantity, etc. With these, the sales representative can offer you an accurate quotation

#### Q: How to get a quotation and start business relationship with your company?

A: Please send us email and our sales representative will contact you as soon as we receive your email.

#### Q: How to start an OEM project with your company?

A: Please send us your designed drawings or original samples so that we can offer a quotation first. If all details are confirmed, we will arrange sample production once received your deposit.

#### Q: What's your MOQ?

A: The MOQ depends on the design and production processes of the products. Normally if we have your product in stock, 100 pieces is also OK. But it can be much more or less depending on different product types. Therefore, we recommend you to tell us your required quantity first.

#### Q: How long can I receive an order?

A: That depends on the specific items and your order quantity. The lead-time varies from 7 to 90 days.

We can provide aluminum zinc alloy casts and any commercialized products in the process flow starting from die making, finish machining until surface treatment Sincerely welcome guests from home and abroad to have business talks and cooperation with us.With a view to make the products meet the customers' demands in a sustained and stable way, we have introduced ISO9001:2008 and TS/16949:2009 quality control system and pass the certification.

Our company have the advanced cutting and stamping equipments.We can cut,stamp and other process according to the size of different aluminum.

Our company can undertake the production of zinc/aluminum alloy die-casting mold,stainless steel stamping die.Hot die casting machine 90T,Cold die casting 180T/400T/950T and all spray polishing equipments provide the external processing.
